OBJECTIVE

Dedicated and driven software engineering student currently earning my bachelor's degree at Bellevue University. Eagerly seeking an opportunity to sharpen my technical skills, and work in a dynamic, collaborative environment tackling real world problems.

SKILLS

- Strong technical experience with: Python, Java, SQL, HTML, CSS, XML, GitHub.
- Experience communicating and coordinating with team members to increase customer/user satisfaction.
- Strategically analyzed problems, designed, and implemented solutions, with Python and Java.
- Building detailed table structures and manipulating their records, using data types, and implementing appropriate access controls in databases.
- Experience with Agile, Scrum, Kanban including electronic boards (Jira).
- Capability to remain positive and diligent working under pressure.

EDUCATION

Bachelor's degree in Software Development | Bellevue University | Grad Fall 23'

Bachelor's degree in Nursing | Purdue University | February 2014
